

MSB Coach

Managing Successful Balance

In partnership with G-Force Karts, MSB Coach challenges your business to an exciting day of self-discovery, transformation and leadership development..

Take the Checkered Flag!

half-day or all-day programs available

continental breakfast
team-building activities
break-out sessions

...and Kart Racing.

We enjoy seeing the transformation that takes place between co-workers competing on the track. The speed, competition, and adrenaline transforms the mild-mannered office worker into a fierce competitor, eager to race to the front of the field and take the checkered flag.

Our European racing karts are pure racing. 6.5HP Honda motors, internal wet clutches, upholstered Tillet seats, Caliba steering wheels, hydraulic disc brakes, seat belts and roll bar protection.

Enjoy our professionally designed 1/4-mile track while speeding through twists and turns at unbelievable speeds. Then check out your time sheets from our computer timing system which captures your completed laps, lap-times, and then ranks you in your heat as well as your overall ranking of the day.

We provide the karts, helmets, neck braces, and even race suits. Karts with 270cc Honda power plants are available to qualifying racers...
