To Whom It May Concern:

I am pleased to write this letter recommending Michelle Braden and MSB Coach to the Darden School. I recently completed the week long leadership with Jack and Carol Weber at Darden so I have some idea of your standards of excellence.

I also took a workshop with Michelle last fall in which she utilized the DISC measure. Michelle is well trained and has excellent skills to give the measure and then to help participants apply the results of DISC utilizing to our business and personal lives. She is a knowledgeable and talented facilitator.

In terms of the choice to utilize the DISC measure vs. Myers-Briggs, I have recently been given both and I much prefer DISC. The DISC profile is easy to understand and the methods employed through Michelle's coaching and training made it easy to apply in the work environment.

I highly recommend the DISC profile and Michelle Braden to you. I think that using the DI|SC Profile vs. Myers-Briggs would be very helpful to your students and perhaps also give your faculty exposure to another useful tool. I hope that you take advantage of Michelle's expertise for your students.

Sincerely,

Marguerite David, MSW
