To Whom It May Concern,

I had the pleasure of working with Michelle in her capacity as president of Health Care Resource Network for the past year. I have always been impressed by her organizational skills, affability and enthusiastic leadership qualities. She consistently exhibits professionalism while communicating with a warm personal approach.

As the founder of HCRN she has built our organization from an idea to a well respected community resource network of professionals. Our success has been the result of her energy and ability to inspire other leaders to take part. This is no small feat as many of the members are company owners, attorneys and business executives, whose time is very valuable to their firms. However due to her leadership the organization has continued to grow and prosper.

The strategy she employed to bring about the success of this organization is a direct result of her coaching and development abilities. I sometimes watch in amazement how quickly she is able to get a buy in from the membership to participate in committee work or group projects.

I am also aware of the successful training she has done within the Beaufort Towers Retirement & Assisted Living Community. She is directly responsible for their present marketing success and improving the bottom line of the organization. Through positive inter action with associates, she coaches them to be better and a smarter team member which has helped Beaufort Towers make great strides over the past several years.

I am proud to offer my recommendation as I am sure you will benefit greatly from her abilities and the sprit that she will bring to your organization.

Regards,

Chuck
